

Project Documentation

Functional Diagram

System Overview

The system was designed to process incoming orders through a **.html form** where the required data was uploaded. This data was then sent to an **AWS Lambda function**, which handled file identification (PDF, Excel, or CSV formats) and data adjustment to make it compatible with the predictive model.

The model itself was loaded from **Amazon S3**. Once loaded, predictions were made, and results were processed further. These results were checked against a **database in Amazon RDS** that we created, containing current orders, item codes, and stock levels.

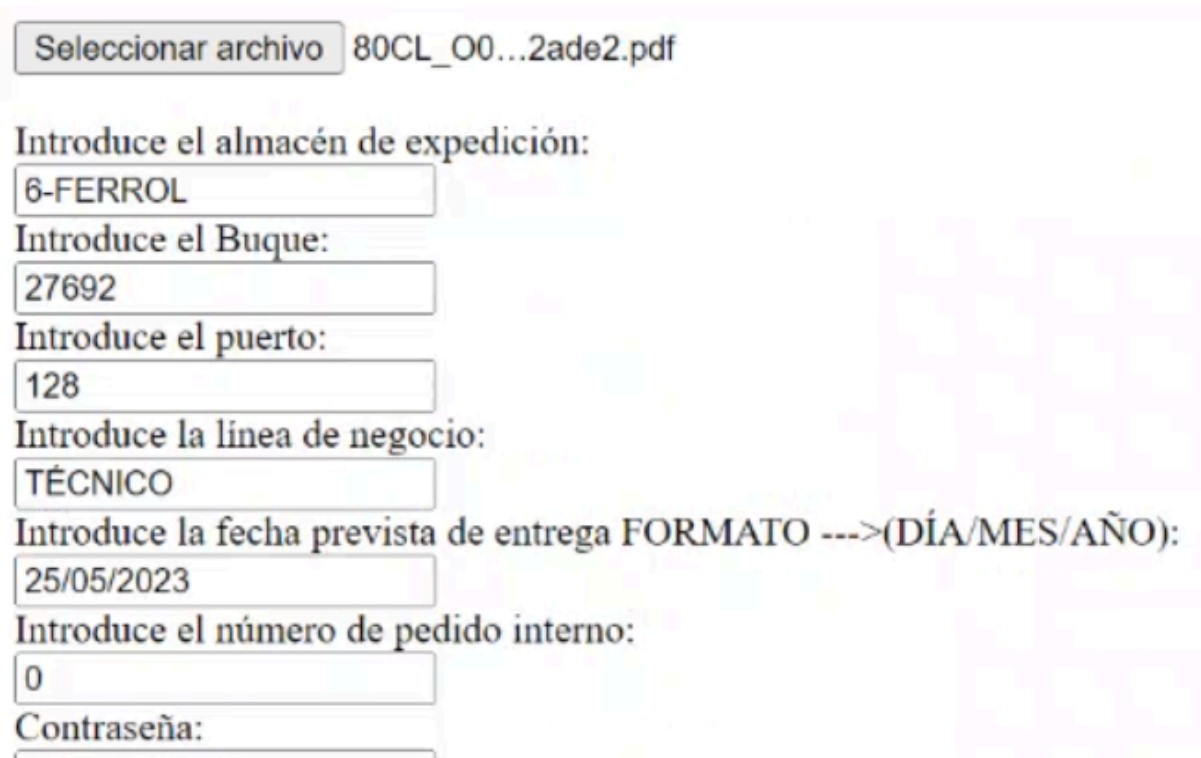

- **If stock was available**, the system generated an offer based on the items requested.
- **If stock was unavailable**, the system substituted the item with a similar one (as defined by the company's item similarity criteria) to complete the final offer.

After these steps, the database was updated accordingly, the generated offer was saved to **Amazon S3**, and a **JSON file** was displayed on-screen for the operator to review.

Usage Example

1. HTML Form

Below is the **.html form** used to submit orders to the system.

The screenshot shows a web form with a light pink background. At the top, there is a button labeled 'Seleccionar archivo' followed by the text '80CL_O0...2ade2.pdf'. Below this, there are several input fields with labels in Spanish. The labels are: 'Introduce el almacén de expedición:', 'Introduce el Buque:', 'Introduce el puerto:', 'Introduce la línea de negocio:', 'Introduce la fecha prevista de entrega FORMATO --->(DÍA/MES/AÑO):', 'Introduce el número de pedido interno:', and 'Contraseña:'. Each label is followed by a text input field. The input fields contain the following values: '6-FERROL', '27692', '128', 'TÉCNICO', '25/05/2023', '0', and an empty field.

Seleccionar archivo 80CL_O0...2ade2.pdf

Introduce el almacén de expedición:
6-FERROL

Introduce el Buque:
27692

Introduce el puerto:
128

Introduce la línea de negocio:
TÉCNICO

Introduce la fecha prevista de entrega FORMATO --->(DÍA/MES/AÑO):
25/05/2023

Introduce el número de pedido interno:
0

Contraseña:

2. Input and Output Examples

Example 1

The following images illustrate the **input of an order** and the corresponding **output generated by the system**.

Item Details									
S.No	Item Code	Item Description	Drawing Number	Part Number	Unit	Quantity	MD	SDoC	Remarks To Vendor
1	330661	SAFETY HANDLAMP RECHARGEABLE, LED HIPOWER MICA ML-800 ATEX		330661	PCS	3.000	No	No	
2	330841	CONNECTION INTERNATIONAL SHORE, WITH FURTHER DETAIL		330841	PCS	1.000	No	No	
3	338691	SIGN ISPS CODE RESTRICTED AREA, #8691GM 100X300MM		338691	PCS	5.000	Yes	Yes	
4	338695	SIGN ISPS CODE RESTRICTED AREA, #WV8695LQ 250X500MM		338695	PCS	2.000	Yes	Yes	
5	337700	SIGN DECK & ENGINE ROOM, OXYGEN #7700 100X300MM		337700	PCS	4.000	Yes	Yes	
6	337611	SIGN WHITE VINYL SELF ADHESIVE, 7611 200X150MM DANGER ELEC HAZ		337611	PCS	2.000	Yes	Yes	
7	337610	SIGN WHITE VINYL SELF ADHESIVE, #7610 200X150MM DANGER HI VOLT		337610	PCS	2.000	Yes	Yes	
8	336056	FIRE CONTROL SIGN, SMOKE DETECTOR 150X150MM		336056	PCS	20.000	Yes	Yes	
9	336043	FIRE CONTROL SIGN, FIRE ALARM PANEL 150X150MM		336043	PCS	5.000	Yes	Yes	

1 of 3

10	331539	POSTER DRUGS & ALCOHOL WARNING, 297X210MM		331539	PCS	20.000	Yes	Yes	
11	335107	SAFETY SIGN START WATER SPRAY, 150X150MM		335107	PCS	5.000	Yes	Yes	
12	331564	POSTER MOORING #1064W, 480X330MM		331564	PCS	5.000	Yes	Yes	
13	331522	POSTER BUNKERING, #1022W 480X330MM		331522	PCS	5.000	Yes	Yes	
14	331523	POSTER POST OIL SPILL ACTIONS, #1023W 480X330MM		331523	PCS	5.000	Yes	Yes
